- April 9th, 2016: FHM Annual Gala & Silent Auction (Durham, NC)

**2014 Annual Report**
Compiling our annual report is a wonderful time to reflect on the many adventures that have transpired over the past year, while giving an opportunity to see the bigger picture and to evaluate the course we are on. In 2014, 4,000 women were screened for cervical cancer at the Blanchard Clinic, another 10 partners joined Family Health Ministries (FHM) to bring HPV screening to their communities, and more than 70,000 women were screened since the inception of FHM’s HPV screening program in 2007.

Other accomplishments for 2014 include 1,001 children receiving 16 additional measles vaccinations and another 656 children returned to primary health care at the Blanchard Clinic, and 630 children attended the Saint Antoine School. These remarkable numbers remind us that the faithful support of a few hardworking community leaders can make a significant impact in the lives of many.

All of FHM’s programs are operated in partnership with Haitian staff and supervised by Haitian leadership. As a result, these accomplishments are not the achievements of FHM, but those of our energetic and inspiring Haitian friends and colleagues whom you support.

We are honored to have you as a member of our family, grateful that you continue to help us tell the FHM story, and thankful for your ongoing encouragement and support.

In 2014, Family Health Ministries purchased the land for the Carmelle Voltaire Women’s Health Center and broke ground.

Race Raises 93k for Women’s Clinic
September 27, 2014: FHM welcomed with S.L.9 Church and local_running team, the 33rd FHM Fondo Marathon. Nearly 350 runners and 210 volunteers raised $35,000, and an additional $10,000 in order to receive an additional $35,000 in support of FHM’s Carmelle Voltaire Women’s Health Center. “Our goal was to register 350 runners and raise $35,000 in order to receive an additional $35,000 in support of the Fondo Marathon. The program gave second and third-year Duke University undergraduate students an opportunity to engage in global health research in real-life settings. Garland Austin, Elle Gault, Zach Morrow, and Lily Zerihun worked in Leogane to administer questionnaires, conduct interviews, and plan for the future.

LANDMARK ACHIEVEMENTS 2014

Dr. David Walmer Presents HPV Research to Haitian Ministry of Health June 30, 2014: Dr. David Walmer presented to the Haitian Ministry of Health on the topic of Cervical Cancer Prevention Work shop. Dr. Grand Pierre, Director of Family Health, thanked those in attendance for their generosity and support to the Ministry of Health, and Dr. Walmer to share their experiences with cervical cancer pre ducers and to introduce a new national HPV program. Dr. Walmer com mended that Haiti adopt HPV testing as the preferred cervical cancer screening protocol and introduced digital pathology with the message that there should be no body of whatever size. Everyone present attentively understood the significance of both these recommendations and expressed a desire to work together in order to affect change with other countries for global health. Dr. Walmer said, “We were honored and grateful for the audience’s attendance and support.”

Building Projects in Fondwa October 2014: One of FHM’s primary goals is to provide children with shelter. To date, FHM has delivered the funds to complete a system that will allow more water to be stored at the Fatima House Orphanage. During the rainy season, it provides adequate water to the 50 children who live there. Construction began on a new dining hall for the Fatima House children, and two more homes were built for two Fondwa families. Ten homes have been built since 2011.

Programs

FHM Featured in Europe
July 12-13, 2014: Roland Holmes (Leogane Clinic) raised over $13,000 for the “Roland4Fondwa” event, the first of its kind. In three days, he ran the circuitous journey of Haiti’s 100-waterfall “Cascades”, covering 365 miles or 590 kilometers, climbed 33,000 feet of vertical climbing, in 30 hours of running, healing his body and mind with his support. Roland4Fondwa was dedicated to raising awareness and funds for FHM’s Carmelle Voltaire Women’s Health Center. “Our goal was to register 350 runners and raise $35,000 in order to receive an additional $35,000 in support of the Fondo Marathon. The program gave second and third-year Duke University undergraduate students an opportunity to engage in global health research in real-life settings.
